

## **BioOne**

For budgetary reasons, the BioOne database subscription has not been renewed for AY 2015-16.

We recommend the following journals to locate content similar to that provided by BioOne:

- *Annual Review of Entomology*—6.476 SJR, ranked 12 in SJR Agricultural and Biological Sciences. Available through Academic Search Complete
- *Plant Science*—1.536 SJR, ranked 144 in SJR Agricultural and Biological Sciences. Available through ScienceDirect
- *Medical and Veterinary Entomology*— 1.176 SJR, ranked 245 in SJR Agricultural and Biological Sciences. Available through Academic Search Complete and Wiley
- *International Journal of Plant Sciences*—0.871 SJR, ranked 407 in SJR Agricultural and Biological Sciences. Available through JSTOR
- *Journal of Applied Entomology*— 0.79 SJR, ranked 457 in SJR Agricultural and Biological Sciences. Available through Academic Search Complete and Wiley

## **About the Database**

Over 82% of utilized titles in BioOne were duplicated in other LLC databases. A high rate of duplication, high per-user costs (\$10.68 per user), and low utilization of the database (67 percent of all titles were not used since our subscription began in 2012) contributed to our nonrenewal decision. Although the vast majority of CSC faculty, students, and staff will be unaffected, a few of our patrons should note that the following journals will no longer appear in any of our databases:

- *Invasive Plant Science and Management*—ranked 791 in SJR Agricultural and Biological Sciences
- *Journal of Economic Entomology*—ranked 380 in SJR Agricultural and Biological Sciences
- *Journal of Medical Entomology*—ranked 333 in SJR Agricultural and Biological Sciences

Articles from these journals can still be obtained via interlibrary loan. If the alternatives prove insufficient, please reach out to the librarian at the reference desk or send us an email ([library@csc.edu](mailto:library@csc.edu)).
